## RELEVANT WORK EXPERIENCE

---

### **Snap**

*Research Intern*

*May 2023 - Aug 2023*

- Conducted and led a research project as part of the Computational Social Science team, as well as collaborated with other team research efforts.

### **Columbia University**

*Teaching Assistant*

*Sept 2018 - May 2023*

- Taught a grad-level lab on using R, statistics and causal inference
- Taught undergrad-level sections and graded for Methods for Social Science (taught interviews, ethnography, experiments and survey design), Global Urbanism and Work and Gender.

### **Snap**

*Research Intern*

*May 2022 - Dec 2022*

- Conducted and led a research project as part of the Computational Social Science team, as well as collaborated with other team research efforts.
- Developed an R package to properly estimate multilevel, dyad data with large datasets in a regression framework.
- Trained embedding models to extract latent cultural preferences across users and used machine learning classification techniques to understand how different users relate to each other in their communication styles.

### **James R. Jones, Princeton/Rutgers**

*Research Assistant*

*February 2020 - May 2022*

- Cleaned and restructured pay-roll data for statistical analysis
- Statistical analysis of data and creation of weekly data visualization and memos for non-technical audience.
