## OTHER RELEVANT WORK EXPERIENCE

---

### Columbia University

*Lead Instructor*

*Sept 2022 - May 2024*

- Created all new lab materials for first year Ph.D. Social Data Analysis lab sequence (companion class to Social Data Analysis lecture).
- Taught a weekly 2-hour grad-level lab on using R, statistics, data wrangling and data visualization, and causal inference.

### Snap

*Research Intern*

*May 2022 - Dec 2022; May 2023 - Aug 2023*

- Conducted and led a research project as part of the Computational Social Science team, as well as collaborated with other team research efforts.
- Co-authored three different academic papers (one as lead author).
- Developed an R package to properly estimate multilevel, dyad data with large datasets in a regression framework.
- Trained embedding models to extract latent cultural preferences across users and used machine learning classification techniques to understand how different users relate to each other in their communication styles.
- Worked using R, Python and SQL

### James R. Jones, Princeton/Rutgers

*Research Assistant*

*February 2020 - May 2022*

- Cleaned and restructured pay-roll data for statistical analysis
- Statistical analysis of data and creation of weekly data visualization and memos for non-technical audiences.

### Columbia University

*Teaching Assistant*

*Sept 2018 - May 2021*

- Taught undergrad-level sections and graded for Methods for Social Science (taught interviews, ethnography, experiments, and survey design), Global Urbanism, and Work and Gender.
